The Background

Since the creation of Bitcoin, blockchain has solved some key issues by introducing peer-to-peer transactions that removed the need of intermediaries. This created a new environment for trustless applications & has brought the idea of decentralization to a new plane. Over the last few years multiple new decentralized applications (dApps) were created – DeFi (decentralized finance) has democratized access to financial instruments to millions of users worldwide. Despite those facts, massive adoption of cryptocurrency & blockchain is yet to come and inherent key issues have to be solved.

Difficult interfaces, long wallet addresses & chaotic trading charts, indeed lack of information can be a problem for a newcomer. That is why we are building Nomos – a revolutionary crypto project that builds blockchain infrastructure & will provide API layers for third party use. Nomos aims to build Nomos Tools (dApps), products with enhanced UI (user interface) features for holders, traders and newcomers alike.

Our Vision

At Nomos, our mission is to make crypto sentiment data accessible by anyone on blockchain in a decentralized way. We aim to provide enhanced social media data for traders & simplified options for non-tech savvy users.

Nomos has been born out of the idea of balance between the rationalism and chaos. The idea that has been permanent throughout the history of mankind! And if there can be time to make that happen the time is now! If we can put it in three words, our approach is: decode, simplify & deliver!

The Problem of Market Analysis

Underline issues of blockchain adoption lies in the fundamental structure, interface and lack of information. The majority of cryptocurrency trading is driven by generic graph reading and impulsive trading.

Sentiment Analysis is a relatively new and extremely powerful tool utilized in market analysis. Markets are ultimately run by human beings and us humans are majorly driven by emotions, hence sentiment has been a driving force in creating crypto market trends.

Blockchain is difficult to newcomers & technological advancement has yet to come.

What are the aspects that a newcomer faces in crypto?

Emotional decision-making, lack of information, impatience, no exit strategy, new tech terminology. DApp interfaces are mostly complex & convey more information than a newcomer can grasp. Wallet addresses are long and non user-friendly. Wallets are difficult to navigate & can be enhanced with sentiment specific information.

We have a **Solution**

'Nomos – We have a solution' This Statement that was first worded out by one of our community members, stands at the core of principles that Nomos Tools follows.

For small to mid-cap tokens, sentiment analysis of telegram, discord and other social media frontiers can provide strong investor confidence on token specific information & trends. This AI based social tool when provided in a simple, user-friendly interface can fundamentally change the way we make smart financial decisions. Especially in the wild west of crypto driven primarily by retail investors, sentiment analysis is an extremely powerful yet underutilized tool in the arsenal of a budding investor.

Nomos builds tools, & it has its own niche and does not compete with any other project. It is evident that crypto is largely moved by emotions and 2017 Bull-run followed by a bear market has proved that. Nomos tools opens the doors to new crypto enthusiasts & helps increase the adoption of cryptocurrency.

Nomos Tools

AI Solutions for newcomers & pro traders

Decentralized Applications

Building UI infrastructure on Blockchain

NOMOS DASHBOARD

'Appolo' is a Nomos optimal AI based dashboard that features hype metrics (simplified), sentiment analysis (global trends), reputation and transaction analysis (advanced). The aim of this tool is to provide organized crypto sentiment data, all combined in a user-friendly interface. The dashboard will be accessible by anyone with 'Trust Wallet' or Metamask.

Nomos dashboard will encompass 2 types of interfaces;

1. Traders dashboard – this interface will provide enhanced data for pro traders with detailed analatics, chart/sentiment specific events.
2. Simplyfied dashboard – this interface is aimed for newcomers and conveys all basic information; detailed hints and knowledge base.

'Appolo' helps make educated decisions when investing in crypto projects.

Users of 'Appolo' will be able to check enhanced data on a neatly designed interface. Coins and tokens will be scanned or selected from a **Trend Chart**.

Nomos Token Holders will receive continuous rewards; a nominal transaction fee will be charged to use this feature (Details in White Paper 2.0)

Nomos **Addresses**

Interfaces are just a start when it comes to shortened wallet addresses. Users of Nomos Tools will have the option to set a shortened version of their wallet address. This tool can be used as a separate API layer & will be available for third-party use.

- Nomos Addresses shorten existing cryptocurrency wallet address & makes it memorable
- Nomos Token (NMS) will be used to request on-chain data. A nominal transaction fee will be charged, further rewarding holders of NMS

*This feature is in a concept development phase.

Nomos **Wallet**

NOMOS WALLET – (INTEGRATION)

Nomos wallet comes with integrated Nomos Tools (Nomos Dashboard and Nomos Addresses). On top of that the wallet will feature sophisticated holding display, swaps, trading, and staking opportunities.

- **Nomos Wallet integrates all nomos tools in one interface**
- **Nomos Addresses will be first available within the wallet**

Nomos Wallet is based on integration of all traditional wallet features and Nomos Dashboard.

Base Features:

- **Holding Display**
- **Sentiment vs Chart Option**
- **Quick Check options**
- **Sentiment Trend Suggestions**
- **Token Specific Mood Bounce Rate**
- **Overall Sentiment Rating**

*Team considers adding additional features on the basis of community consensus.

Tokenomics

NMS - A Deflationary & Holder Rewarding Token on BSC

Nomos Token (\$NMS) Holders are incentivized to Hold via exclusive holder distribution rewards, automatic burns & automatic LP, which further increases the value of Nomos

TOKEN UTILITY

Nomos Tokens represented by the ticker NMS, will have multiple uses. Main utility of the NMS token is to handle transactions at Nomos Tools. With a use of a new tax model, these transactions will reflect to the current holders of NMS and facilitate on chain data.

Second Utility > with the release of Nomos Tools, Team is looking to implement a governance model. Holders of NMS tokens to control the future of Nomos by issuing governance proposals and having them voted upon.

TOTAL SUPPLY: 11,000,000,000

TICKER: NMS

DECIMALS: 11

Contract Address:

0xF7B7Db914e8Fd226f5648CebDc7464D1aC4f6AFc

NMS Token Tracker on BscScan

<https://bscscan.com/token/0xF7B7Db914e8Fd226f5648CebDc7464D1aC4f6AFc>

Tax Model

1%

AUTOMATIC BURN

1% of each transaction get burnt, decreasing the total supply over time & increasing the token value

1%

AUTOMATIC LIQUIDITY

1% of every transaction gets put towards the liquidity pool on Pancakeswap

4%

REDISTIRBUTION

4% of every transaction gets redistributed to holders, i.e., receive more \$NMS by holding

**11%
TAX**

5%

HYPE ENSURANCE

5% tax gets swapped to BNB and sent to marketing wallet, ensuring that Nomos project is continuously hyped

Allocation

Airdrop 5%
Team 5%
Partnership 5%
Research & Development 10%
Burned 50%

Presale: 11%
PinkSale Launch: 7%
Liquidity: 7%

Roadmap

Pre-Launch Phase:

Airdrop Round 1 Campaign

Airdrop Round 2 Campaign

Fairlaunched on Pinksale 15th October

PHASE 1: Q4-2021

Marketing Partnership

Audit (Techrate or SolidityFinance)

Coingecko Listing

CoinmarketCap Listing

TrustWallet

Blockfolio

Nomics

Airdrop Round 1 Distribution

PHASE 3: Q2 2022

More Partnerships,

'Appolo' Beta 1.0,

Nomos Addresses 'sProof of Concept

Community Discussions

Re-evaluate past progress

PHASE 2: Q1 2022

Dev Team Expansion

'Appolo' Proof of Concept

New investor relations

Tech partnerships

Airdrop Round 2 Distribution

PHASE 4

Nomos Dashboard 'Appolo' Launch

Nomos Addresses Beta 1.0,

Nomos Wallet Beta

Development Roadmap

Apollo Dashboard: The backbone of the Apollo Dashboard is KPIs (Key Performance Indicators) generated via the aggregated algorithms with breakdowns of Holder sentiment, hype metrics, bot/artificial activity and activity insights. This shall be provided by the proprietary AI algorithm to analyze social indicators of tokens. The Initial priority will be the development of the algorithm which is active and future modules added as the team expands.

DEVELOPMENT TIMELINE

Apollo Dashboard: Alpha version for internal testing to be available Q1 2022, with public beta to go live Q2 2022.

Nomos Addresses: We aim to provide a scheme of key components and test the concept internally; Proof of concept - Q2 2022

Nomos Wallet: We intend to provide an uniquely new type of wallet; this is majorly based on the discussions within the community and the proposal of concept scheduled by the Team: Q3 2022;

Partnerships

Nomos stands for order and transparent information. In order to provide full featured services for the users of Nomos Tools, our collaboration plans are set to collaborate with: universities, selective tech companies from top fortune list and high profile data focused blockchain projects. Partnership areas include engagement of students from tech universities worldwide, tech supply, blockchain data storage and token/coin safety index providers. As we are in an early development stage, more information is yet undisclosed.

Team

Luka Zet
Strategic Lead

Focused on strategic development of Nomos. Leads successful international projects in creative industry. Supports innovations & blockchain!

George Shein
Tool Concept Development

Architect/designer. Professor. Focused on concept development, branding and tool design.

Sam Jain
Chief Technical Officer

Sam is a software developer with years of experience in UI UX, front end design and Machine Learning.

Daniel Zed
Head of Expansion

Has a vast network of connections in the financial & creative tech sector. He is in charge of promoting NO-MOS in the UK.

Dea Val
Social Media Marketing

Engaged in evolving Nomos's online identity and presence. Cares about Art, Science and Technology.

Nomos Community

Community of the Nomos Project is vibrant & passionate and supports Nomos in its venture to the moon.

FAQ

When has Nomos launched?

Nomos Token (NMS) has launched on Pink-Sale Launchpad at 15th October 2021;
Link to Fairlaunch: PinkSale

<https://www.pinksale.finance/#/launchpad/0xdA2AA0231aB9c3f8AF6173a915c24c7Bd78320B0?chain=BSC>

Is the NMS liquidity Locked?

LP tokens are locked by Pinksale for 1 Year
Lock Date: 2021.10.15 17:37 UTC
Unlock Date: 2022.10.15 17:37 UTC
Proof of NMS liquidity lock:

<https://www.pinksale.finance/#/pinklock/record/300?chain=BSC>

Project Tokens locked- Proof?

All Project tokens are locked with Pinklock.
Proof of Project NMS Locked:

<https://www.pinksale.finance/#/pinklock/detail/0xF7B7Db914e8Fd226f5648CebDc7464D1aC4f6AFc?chain=BSC>

Where can i purchase NMS?

You can trade NMS on PancakeSwap > Get NMS on PancakeSwap:

[0xf7b7db914e8fd226f5648cebdc7464d1ac4f6afc](https://www.pancakeswap.finance/#/trade/0xf7b7db914e8fd226f5648cebdc7464d1ac4f6afc)

When Does the Airdrop Round 1 distribution start?

Distribution of airdrop round 1 & limited airdrop starts November 23rd and ends Dec 23rd 2021.

Whats the Appolo Dashboard release date?

Alpha version for internal testing to be available Q1 2022, with public beta to go live Q2 2022.

When Does Airdrop Round 2 distribution start?

Airdrop Round 2 distribution starts in Q1 2022 – TBA

How to add NMS to my wallet?

Add NMS Token on TrustWallet

1. Tap on the toggle sign on the upper right corner of the Wallet Screen
 2. Scroll all the way down and click 'Add Custom Token'
 3. Select Network (Smart Chain)
 4. Paste Nomos Token Contract Address:
`0xf7b7db914e8fd226f5648cebdc7464d1ac4f6afc`
- Add Token Symbol: NMS
 - Add Decimals of Precision: 11
 - Click Done (upper right corner)

You shall now see your NMS shown in Trust Wallet

More information available here: <https://community.trustwallet.com/t/how-to-add-a-custom-token/213>

Add NMS Token on MetaMask

1. Navigate to Assets
 2. Click Add Token
 3. Select the Custom Token tab
 4. Add Token Contract Address (see below for Nomos's address):
`0xf7b7db914e8fd226f5648cebdc7464d1ac4f6afc`
- Add Token Symbol: NMS
 - Add Decimals of Precision: 11
 - Click Next

You shall now see your NMS shown in MetaMask

Conclusion

Nomos is a project, which will revolutionize the way that everyday investors analyze crypto market data. While the Nomos team is focused on listings and building essential partnerships, our further plans are much broader and will involve developing additional features of the Nomos Tools.

The future of crypto is simple and accessible to anyone with a smartphone. Nomos Project is making it a reality.

We are pleased to have you on this journey with us!

Nomos Team
